

USAMRDC Medical Technology Transfer (MTT) Delivering Life Saving Products to the Warfighter

MRDC MTT uses Technology Transfer with and without additional Product Development funding to field products for the Warfighter

MRDC leverages its innovations/inventions via patents, copyrights, trademarks, materials, software code & data, facilities and expertise with academic & industrial partners to obtain products for the Warfighter

Results

- 88 Licenses → 28 Products to the warfighter → annually (\$1M Royalties + \$250K Patent fee reimbursement)
- 952 CRADAs → \$26M in R&D funding plus in-kind services (labor/materiel)
